Ken Paterson Architects
PO Box 271
SOUTH PERTH, WA, 6951

Dear Ken,

RE: ARCHITECTURAL SERVICES

I would like to thank Ken Paterson Architects, for the professionalism you and your team have shown in your dealings with Doric Construction. This is the second project that we have had the pleasure in working with your company and must say that the whole construction process has been seamless and problem free.

Your ability to provide us with a professional service, highly accurate documentation and timely correspondence responses has been very impressive and has contributed to the efficient execution of the construction and the timely completion of the project.

We all tend to understate the importance of the Architects on a project, but it is this attention to detail - during the documentation design phase, and the prompt and decisive responses to queries that ensures a successful project for all concerned.

Through working on a variety of jobs with Ken Paterson Architects, over a number of years now, we can confidently say that the professionalism and performance displayed by your team through your ability to lead, your management style, interpersonal relations, problem solving skills, and the ability to think critically have been first class.

We are pleased to act as a reference for Ken Paterson Architects and we would highly recommend you and your team to any potential client.

Yours faithfully,

Joseph L Martin
