WOOLWORTHS

TO WHOM IT MAY CONCERN

Ken Paterson Architects are a highly professional firm who have provided skilled architectural services for us since 1973 - they designed our W.A. State Offices at Kewdale and a number of shopping centres in which we have successful major tenancies.

Having personally known Ken and the Company for over 15 years, I feel well qualified to endorse their retail expertise. They are a team of well qualified, experienced retail architects capable of providing the complete Architectural and Project Management service, which they have done on a number of projects.

I have found them to be extremely professional, honest, trustworthy and reliable - they accept the responsibility entrusted to them and they have always carried out their duties and tasks with accuracy, diligence and enthusiasm.

As retail specialists, they are conversant with the requirements of shopping centres, enabling them to compile excellent concepts and realistic feasibilities to maximise profits and investment returns for the development.

I have no hesitation in recommending Ken and his team for any retail project requiring their architectural and management services.

Yours faithfully,

PETER ZYRUCHA
STATE PROPERTY MANAGER
