TO WHOM THIS MAY CONCERN

Reference: Ken Paterson

I have had the pleasure of working in conjunction with Ken Paterson, from Ken Paterson Architects, from 1987 to the current date.

During this time we have successfully redeveloped Stage One and Stage Two of the Innaloo Shopping Centre in his capacity as architect on the project for Stage One. Ken also project managed the site in all facets of design, architecture, project management and retail design criteria. Ken Paterson Architect's skill team have achieved very high results.

The \$30 million refurbishment of Innaloo City Centre is a clear example of the high standards achieved by Ken Paterson Architects. Ken has been instrumental in driving various ancillary projects apart from the main contract, especially in respect of land acquisitions, where upon Ken dealt direct with the Vendors and successfully negotiated on behalf of our company, the purchase of the land.

I have no hesitation in recommending Ken Paterson and his associates for any future project works that may arise and I would be pleased to supply a verbal reference if you contact the writer on 375 3228.

Yours faithfully

N. KISLINSKY
