TO WHOM IT MAY CONCERN

Woolworths (W.A.) Pty Limited A.C.N. 008 668 148

Ken Paterson Architects (KPA) are a highly professional firm who have provided skilled architectural services for us since 1973 – they designed our WA State Offices at Kewdale and a number of Shopping Centres in which we have successful major tenancies.

Ken Paterson Architects have been the architects on two recent Woolworths Marketplace Shopping Centres at Currabine and Livingston and were engaged on these projects from 1994 to 1999. KPA are fully conversant with the latest design and level of finishes required for the Marketplace concept.

Having personally known Ken and the Company for over 20 years, I feel well qualified to endorse their retail expertise. They are a team of well-qualified, experienced retail architects capable of providing the complete architectural service, which they have done on a number of projects. I have found them to be extremely professional, honest, trustworthy and reliable – they accept the responsibility entrusted to them and they have always carried out their duties and tasks with accuracy, diligence and enthusiasm.

I have no hesitation in recommending Ken and his team for any retail project requiring their architectural and management services.

Yours faithfully

Woolworths (WA) Pty Ltd

Peter Zyrucha
State Property Manager
